

List of average agents 2019/2020

General instructions for survey

The master should be aware that when the vessel is insured on Danish, Swedish or Nordic hull insurance conditions, the policy covers damage to the Insured's vessel and any other property struck by that ship whether it be fixed or floating such as ship, pier, dolphin, buoy etc.

At all times, please ensure that a survey of the damaged object is conducted. Contact the Hull Underwriters also for survey of the third party property. Note - if the collision liability is resting with the P&I insurers, please contact P&I for survey of the third party property.

If for some reason contact with the Hull

Underwriters is not established, ensure that our Average Agent at the port is notified promptly of the accident, even in case of minor damage, and please provide full reports, log extracts, Master's report relating to the incident and in case of engine damage also the Chief Engineer's report. The quicker we are notified, the quicker we can act to protect your interests.

In ports where we are not represented and no reference is given, please contact nearest representative in the same country. Otherwise apply to Lloyd's agency.
